Corments. It has been assumed that	the Infantrie Kaserne had only one build-
ing which was habitable and occupied by	a headquarters battery or AT artillery
battery of the 18th (?) By How Arty Bris.	l however, the 25X1A
present report indicates that several bar	racks buildings of the installation are
habitable and occupied by more troops the	can only one battery. In comparison with
the reference report, no changes regarding	the occupation of the other installations
are discernible.
